## Reference Materials to Proposals at General Meeting of Shareholders

### Proposal 1: Share Consolidation

#### 1. Reason for Proposal

For the greater convenience of investors and other market participants, all Japanese securities exchanges are promoting an "Action Plan for Consolidating Trading Units", under which trading units of common shares (number of shares in a unit) for domestically listed companies are uniformly set at 100 shares. In light of the intent of this action plan, the Company decided to change the number of shares in a unit from 1,000 shares to 100 shares by the resolution at the Board of Directors meeting held on 20 May 2016, according to the provisions of the Companies Act.

In this exercise, in order to maintain price level of a trading unit and the number of voting rights of shareholders following the change of the number of shares in a unit, the Company also decided to carry out a share consolidation of the Company shares under which every 10 shares will be consolidated into 1 share (the "Share Consolidation").

Subject to the approval of this proposal as originally proposed, the aforementioned change in the number of shares in a unit will take effect on 1 October 2016.

#### 2. Consolidation Ratio

Every 10 shares in the Company will be consolidated into 1 share. If any fractional shares arise as result of the Share Consolidation, pursuant to the Article 235 of the Companies Act, the Company will sell all such fractional shares and distribute the proceeds to shareholders having fractional shares in proportion to their respective fractions.

#### 3. The Date on which the Share Consolidation Becomes Effective (the "Effective Date")

1 October 2016

#### 4. Total Number of Authorized Shares as of the Effective Date

177,500,000 shares

By implementing the Share Consolidation, it will be deemed that the Articles of Incorporation is amended with respect to the change of total number of authorized shares on the Effective Date, pursuant to Article 182.2 of the Companies Act.

(Reference only)

Subject to the approval of this proposal as originally proposed, the Articles of Incorporation of the Company will be partially amended as follows on 1 October 2016. The following table shows the comparison between the current and amended provisions of the Articles of Incorporation. The specific changes made are indicated by underlines.

Notes:

1. Messrs. Günter Zorn, Toshikuni Yamazaki, Yasuyuki Kimoto and Masatoshi Matsuzaki are candidates for the External Directors stipulated in Article 2.15 of the Companies Act. In addition, all of them have been notified to Tokyo Stock Exchange (TSE) as Independent Directors. Furthermore, the Company originally has more stringent criteria with respect to such independency of directors considering their relationships with the Group itself, Group's directors and/or Group's major shareholders, which all four candidates for External Directors also meet. For the detail of the criteria, please see page 16.
2. Particulars of the candidates for External Directors are as follows:
  - Agreement on liability limitation with External Directors
    - The Company concluded an agreement with Messrs. Günter Zorn and Toshikuni Yamazaki, and will do the same with Messrs. Yasuyuki Kimoto and Masatoshi Matsuzaki respectively to the effect that the liability of each of the External Directors in performing their duties in good faith and without gross negligence be limited to the amount permissible by law.

# 150th Business Report of Nippon Sheet Glass Company, Limited

From 1 April 2015  
To 31 March 2016

## 1. Matters Relating to the Current State of the Company's Corporate Group

### (1) Overview and Results of Business Activities

During the year to 31 March 2016 (FY2016), the Group experienced contrasting conditions in its major markets. European Architectural markets improved from the previous year and Automotive markets continued to recover, with significant increases in light vehicle sales in key Southern and Western European markets. In Japan, Architectural markets were stable, with volumes similar to the previous year, whilst Automotive markets were negatively affected by revised eco-car tax exemption rules. North American markets showed further growth, particularly in Architectural. Low-levels of consumer confidence contributed to a significant decline in Automotive markets in South America. In Technical Glass, markets for thin glass for displays were particularly challenging. The Group has posted a number of one-off exceptional losses for FY2016 to reflect the market conditions in Display and demand downturns in emerging markets.

As a consequence, the Group's year-end results are as shown in the table below.

	Results	
Consolidated Revenue	¥ 629,172m	(up 0.4%)
Consolidated Operating Profit	¥ 19,362m	(up 14.9%)
Consolidated Loss before Taxation	¥ 37,439m	
Consolidated Loss for the Period	¥ 47,500m	
Consolidated Loss Attributable to Owners of the Parent	¥ 49,838m	

Note : Operating profit in the above table is defined from FY2016 as being operating profit stated before exceptional items.

The performance by segment is as follows.

# Architectural

Revenue: ¥ 262,559 million

Operating profit : ¥ 24,560 million

## Business content:-

Architectural, representing 42 percent of the Group's annual sales, includes the manufacture and sale of flat glass and various interior and exterior glazing products within commercial and residential markets. It also includes glass for the Solar Energy sector.

## Ratio of sales to Group sales

## Sales

(Millions of yen)

Operating results in the Architectural business improved from the previous year due to reduced energy-related input costs and further improvements to market conditions in North America. Revenues also increased, due largely to the strong market conditions in North America.

In Europe, representing 35 percent of the Group's Architectural sales, demand increased through the year leading to an improved pricing environment. Cumulative local currency revenues increased reflecting the improved underlying conditions. Profitability was negatively affected by a cold repair, offsetting the positive impact of lower input costs.

In Japan, representing 27 percent of Architectural sales, cumulative volumes were similar to the previous year. Revenues and profitability improved due to improved prices and increased sales of value-added products.

In North America, representing 15 percent of Architectural sales, architectural glass markets continued to register year on year growth. The Group's revenues and profits improved from the previous year. Volumes increased, with domestic demand being particularly strong. Domestic price levels were also above the previous year.

In the rest of the world, markets were generally at similar levels to the previous year. Solar glass dispatches were robust in South East Asia, and profits in South America were resilient despite a challenging economic environment and a cold repair in Argentina. On 31 March 2016, the Group announced its decision to exit from its loss-making business in China producing rolled glass for crystalline silicon photovoltaic applications.

The Architectural business recorded revenues of ¥ 262,559 million and an operating profit of ¥ 24,560 million.

# Automotive

Revenue: ¥ 316,327 million

Operating profit : ¥ 9,813 million

## Business content:-

Automotive, with 50 percent of Group sales, supplies a wide range of automotive glazing for new vehicles and for replacement markets.

## Ratio of sales to Group sales

## Sales

(Millions of yen)

Automotive business revenues were similar to the previous year. Profitability improved however, with increased volumes and cost savings in Japan.

Europe represents 44 percent of the Group's Automotive sales. Light-vehicle sales were ahead of the previous year, with further growth in Western Europe indicating a sustainable market recovery. The Group also benefitted from robust volumes in its Automotive Glass Replacement (AGR) business. Total local currency revenues and profits were both slightly improved from the previous year.

In Japan, representing 18 percent of the Group's Automotive sales, OE revenues and profits were both ahead of the previous year. The Group's volumes increased, despite light-vehicle sales falling after the implementation of revised eco-car tax exemption rules. AGR profits were also ahead of the previous year.

In North America, representing 28 percent of the Group's Automotive sales, cumulative OE local currency revenues were ahead of the previous year as market volumes continued to strengthen. The Group's AGR revenues fell however.

In the rest of the world, weak market conditions persist in South America, with a significant decrease in light-vehicle sales in Brazil.

The Automotive business recorded sales of ¥ 316,327 million and an operating profit of ¥ 9,813 million.

# Technical Glass

Revenue: ¥ 49,490 million

Operating profit : ¥ 267 million

## Business content:-

Technical Glass, representing 8 percent of Group sales, comprises a number of discrete businesses, including the manufacture and sale of very thin glass for small displays, lenses and light guides for printers, as well as glass fiber products, such as battery separators and glass components for engine timing belts.

## Ratio of sales to Group sales

## Sales

(Millions of yen)

Revenues and profits in the Technical Glass business were below the previous year due to a challenging competitive environment in the Display business.

On 31 March 2016, the Group announced an adjustment to its production of thin glass for displays, with the mothballing of its thin glass float line in Vietnam. The timing for restarting this line is to be decided, and will be dependent on the future market situation, inventory levels, and other relevant factors.

Demand for components used in multi-function printers which had been robust in earlier quarters, softened during the second half of the year. Volumes of glass cord used in engine timing belts were robust, consistent with strengthening Automotive markets in Europe.

The Technical Glass business recorded revenues of ¥ 49,490 million and an operating profit of ¥ 267 million.

# Other

This segment covers corporate costs, consolidation adjustments, certain small businesses not included in the segments covered above and the amortization of other intangible assets related to the acquisition of Pilkington plc. Operating costs and consolidation adjustments incurred in Other Operations and Eliminations were above the previous year due to non-recurring consolidation adjustments.

Consequently, this segment recorded revenues of ¥ 796 million and operating costs of ¥ 15,278 million.

## (2) Capital Expenditure

The capital expenditure of the Group totaled ¥28,192 million during the fiscal year under review, broken down by segment as follows:

Business	Expenditure
Architectural	¥13,156 m
Automotive	¥ 13,272 m
Technical Glass	¥ 1,452 m
Other	¥ 312 m

## (3) Financial Situation

Total assets at the end of March 2016 were ¥ 812,120 million, representing a decrease of ¥ 107,986 million from the end of March 2015. Total equity was ¥ 112,011 million, representing a decrease of ¥ 73,997 million due to the loss for the period and the translational impact of a strengthening Japanese yen. A reduction in net retirement benefit obligations partly offset the impact of currency movements and the loss for the year.

Net financial indebtedness increased by ¥ 6,952 million from 31 March 2015 to ¥ 381,044 million at the period end.

Currency movements generated an increase in net debt of approximately ¥ 700 million over the period. Gross debt was ¥ 436,959 million at the period end. As of 31 March 2016, the Group had un-drawn, committed facilities of ¥ 49,647 million.

Cash inflows from operating activities were ¥ 21,789 million. Cash outflows from investing activities were ¥ 26,401 million, including capital expenditure on property, plant, and equipment of ¥ 28,197 million. As a result, total cash outflows before financing were ¥ 4,612 million.

#### **(4) Issues to be Addressed**

Since the Group's Long-term Strategic Vision and Medium-Term plan (MTP) was announced in May 2014, the Group has been focusing on the maximization of capacity utilization and growing its VA (value added) product ratio as the core strategy within its MTP. While continuing to maintain the core strategy, the Group will further accelerate measures to achieve "VA Glass Company", its Strategic Vision. Under the Long-term Strategic Vision, our aim is to:

- Consolidate our trusted reputation as a glass specialist
- Work closely with our customers in a range of global industries to deliver values required by our customers through our products and services
- Transform our flat glass business, moving from a traditional commodity business model towards one increasingly focused on value-added products and services

Although the regions in which the Group operates have shown mixed results, where the performance is weak, the Group will take additional improvement measures, while stepping up its efforts to seek higher profitability for those with an already strong performance.

On 31 March 2016, the Group announced that it would cease production at its business manufacturing rolled glass for crystalline silicon photovoltaic applications, representing an exit from its loss-making Architectural business in China. On the same day, the Group also announced an adjustment to its production of thin glass for displays with a temporary closure of its thin glass float line in Vietnam, thus minimizing losses in the display division. Through these actions the Group continues to take necessary measures to align its production capacity with current levels of market demand, eliminating obstacles to a further recovery in the Group's performance.

The Group expects to see an improvement in market conditions during FY2017. In Europe, Architectural markets are likely to be broadly stable with supply and demand in balance across the region. Light vehicle sales increased steadily during FY2016, and this recovery should continue through FY2017. Absolute levels of light vehicle sales in Europe will still be below their previous peak however. Architectural markets in Japan are likely to be generally flat but with the Group benefitting from an increase in VA sales, whilst automotive revenues are likely to fall following the implementation of revised eco-car tax exemption rules during FY2016. Architectural markets in North America will continue to be robust, with the Group benefitting from a high proportion of VA product sales. Automotive markets should also be at a good level, with the Group's profitability expected to improve. In South America, the Group expects to see a leveling-off of previous declines in light vehicle sales, although does not anticipate a significant rebound in near-term volumes. In the rest of the world, market conditions in South East Asia are likely to continue at a good level and the Group's Architectural results will benefit from the closure of the rolled glass line in China. Within the Technical Glass business unit, results from the display division will benefit from the temporary closure of the Group's thin glass float line in Vietnam. Across the Group, operating profitability is expected to benefit from relatively low energy costs and the Group's continued efforts to reduce its cost base. Amortization costs arising on the acquisition of Pilkington plc will fall to approximately half the level of FY2016.

Taking account of the above factors, the Group expects to record an improvement in operating profitability in FY2017.

For the Group's financial position, please kindly refer to the above section 1. (3) "Financial Situation". The Group continues to aim at achieving financial sustainability through cash generation and net debt reduction by further improving

the underlying business profitability and keeping tight control of working capital and capital expenditure. Discussion for securing further financial facilities will be continued with the financial institutions appropriately.

Each business unit has specific issues to be addressed as follows.

### **Architectural**

The Group's Architectural business will focus on further improvements to its profitability. Previous restructuring actions have generated an improved level of asset utilization, which, together with falling energy costs, has enabled a strong improvement in operating profitability. The Group will continue to focus on achieving a high level of asset utilization, as well as expanding its sales of VA products.

The Group intends to focus on further improving levels of Architectural profitability, particularly in Europe. European prices improved during the course of FY2016 but remain at historically low levels. Input costs were positive, due to a decline in energy prices. European profitability in FY2017 should benefit from a stable market environment and relatively low energy costs. The Group will focus on achieving a high level of asset utilization and an increase in sales of higher-margin VA products.

The drive to produce clean renewable energy will continue to fuel growth for the Group's Solar Energy products business over the long-term. VA products, such as low-e glass designed to save energy in buildings, will become an increasingly important part of the Group's Architectural portfolio. The Group's medium-term Architectural strategy is to further develop its portfolio of VA products, where it has a technological advantage over competitors.

### **Automotive**

As in the Architectural business, the Group's Automotive business will continue to focus on improving profitability. The Automotive business has also experienced a fall in input costs, particularly with respect to energy.

The Group expects to achieve long-term expansion of its Automotive business in fast growing emerging economies. However, South American markets have continued to decline during FY2016, and are expected to continue to be at a low level during FY2017, reflecting a difficult economic environment. In South America, the Group consolidated its Automotive sites to reduce fixed costs, and the Group will continue to work on to develop after market applications further. The Group's largest Automotive business is in Europe, which has suffered from declining volumes since 2008. However, light vehicle sales registered an increase across most European economies during FY2016, and the Group expects this to continue during FY2017.

Technological advances in VA areas such as autonomous driving, advanced information & communications technology, Solar Energy control, and weight reduction will play an important part in the future of Automotive glazing, and the Group will continue to be a key player in these areas. The Group also expects to grow its AGR business both through organic growth and, where appropriate, strategic acquisitions.

### **Technical Glass**

In Technical Glass, the Group's profitability declined sharply during FY2016. Markets for thin glass for displays were weak and price levels fell as a result of industry-wide over-capacity. The Group's decision to temporarily reduce its production in this area, together with improving sales of new composition VA products such as glanova™, should enable an improved result in FY2017. Demand for glass products used in multi-function printers softened during FY2016, and the Group does not anticipate a significant rebound in this market during FY2017. Volumes of glass cord used in engine timing belts should be robust however, reflecting a further growth in light vehicle sales, particularly in Europe.

The Group will continue to meet its customer's needs across the globe, by fully utilizing its technological leadership and development capability to develop and expand sales of new value-added products in addition to growing with existing

businesses, in its technical glass segments.

The Group will accelerate measures in line with the Strategic Vision and MTP to address the above-mentioned issues.

The overall objectives of the MTP are to achieve financial sustainability and to further develop the NSG Group's position as a VA glass company. The Group has established two very clear financial targets to be achieved by 31 March 2018, Net financial debt / EBITDA of 3X and Operating return on sales of greater than 8%. Under the MTP, the Group aims at achieving Return on equity (ROE) of greater than 10% in FY2018.

The Group will perform an assessment of its performance against its MTP, and consider any actions that now need to be taken to ensure that the Group continues to move towards achievement of its MTP objectives. The results of this assessment are expected to be communicated alongside the Group's second quarter results for FY2017.

### ■ Distribution of NSG Group Shareholders

## 3. Policy on Return of Our Profits to Shareholders

The Group's dividend policy is to secure dividend payments based on sustainable business results. As a consequence of the current market conditions faced by the Group and the loss sustained during the year, the directors did not recommend a dividend for the year to 31 March 2016. The Group recognizes the importance of dividends to its shareholders and anticipates resuming dividend payments when the financial performance of the Group allows.

#### Notes:

- Messrs. Seiichi Asaka, Hiroshi Komiya, Günter Zorn and Toshikuni Yamazaki are External Directors as stipulated in Article 2.15 of the Companies Act and notified to Tokyo Stock Exchange (TSE) as Independent Directors. In addition to such criteria set by TSE, the Company originally has more stringent criteria with respect to such independency of directors considering their relationships with the Group itself, Group's directors and/or Group's major shareholders, which all four External Directors also meet. For the details of such criteria, please see page 16.
- A member of Audit Committee, Mr. Toshikuni Yamazaki has specialized knowledge particularly on finance and accounting to a respectable degree with his career of Representative Director, Executive Vice President (in charge of finance, investor relations and accounting) of the major international manufacturing company.
- The Company does not appoint a full-time Audit Committee member for the time being under the circumstances. Audit Committee implements organizational audit in co-operation with the external Accounting Auditor, Group Internal Audit and other internal control functions as a Company with Three-Committee System. For assistance of such Audit Committee's audit, the dedicated Support Staffs of Audit Committee are appointed and report to and provide necessary information to Audit Committee.

## (2) Compensation for Directors and Executive Officers

### A) Principles of Compensation for Directors, and Executive Officers

#### (i) Organization & Responsibilities

The Compensation Committee was established following the 142nd Ordinary General Meeting of Shareholders in June 2008. Its current membership consists of the four External Directors of NSG Group, two Directors who concurrently serves as Representative Executive Officer. The current chairman is Mr. Günter Zorn, an External Director. No member of the Committee is allowed to be present when matters relating to his specific compensation are being discussed. The Committee is supported by a secretariat from the Human Resources function and may use information from specialist external advisers when necessary. In addition, such member(s) of the Legal and Company Secretarial department as the Committee approves of acts as in-house legal adviser for any legal aspects or matters. During the year 2015/16, the Committee met on four occasions.

The Committee is responsible for:

- Determining the policy on individual compensation and other perquisites payable to the Directors and Executive Officers of the Company
- Determining individual compensation and other perquisites payable to the Directors and Executive Officers of the Company.

The Committee may also give recommendation or advice to the Representative Executive Officer, President and CEO on the policies and details with respect to compensations for the Group's senior management other than Directors and

Executive Officers, keeping a consistency with the policy of (ii) below.

(ii) Compensation Policy for Executive Officers

NSG Group is a global business, operating in around 30 countries worldwide. The objectives of the compensation policy are to ensure that packages of employment terms and conditions are market competitive and designed in such a way as to attract, retain and motivate Executive Officers of the highest caliber on a worldwide basis in an international business.

The policy aims to ensure that each individual's basic salary and incentives are aligned with the performance of the Group and the interests of shareholders as well as reflecting the commitment and achievements of the individuals concerned. While some of the elements of the packages of the Executive Officers will vary depending on the market conditions in the countries in which they are directly employed, annual bonus and long-term incentive plans follow a global policy and are structured, designed and co-ordinated at Group level.

Salary and benefit packages are set at market competitive levels and annual performance-related payments are assessed against the achievement of key targets which are mainly financial.

The salaries of Executive Officers are reviewed annually. The policy is to broadly align salaries with market medians for a global business. In determining what are the appropriate market rates, account is taken of turnover, market capitalization and the complexity and breadth of internationalization. In reviewing salaries, account is also taken of the scope and responsibilities of the role, the performance of the individual, the progress the Company is making against its targets and plans and of salary increases planned for other managers.

Each Executive Officer participates in an annual performance-related incentive scheme. The Committee establishes the performance criteria and sets the appropriate bonus parameters. The incentive plans are based on challenging financial performance targets relating to the annual budget which is approved by the Board and key non-financial performance targets. The financial performance targets are clearly aligned to the overall medium term strategy of the Group.

Performance measures for the FY2016 annual incentive plan for Executive Officers included the following:

Elements	Weight (%)
Management Operating Profit	40
Net debt scale	40
MTP (Medium Term Plan)	20

Performance measures for the FY2017 annual incentive plan for Executive Officers will include the following:

Elements	Weight (%)	
	CEO, COO and CFO	Other Executive Officers
Group Management Operating Profit	50	25
Group Free Cash Flow	50	25
Global SBU* Management Operating Profit	—	25
Global SBU* Cash from Operations	—	25

\* SBU means each "Strategic Business Unit" of the Group

No bonus is paid to the Executive Officers if a minimum entry level of performance is not achieved. This minimum

entry level is set and approved by the Committee to ensure that the business is meeting the minimum standard of financial performance. The annual bonus potential payment levels for Executive Officers range between 0 and 125% against each individual's basic salary dependent upon the management grade.

Each Executive Officer may be invited to participate in a Long Term Incentive Plan (LTIP). These plans are designed to reward the achievement of the Group's longer term objectives over a three year period. An LTIP may be issued annually. Therefore at any point in time there may be up to three overlapping plans in operation. The performance criteria for these plans are in the main financial measures.

The performance measure used in the plans that are in operation for, FY2014, FY2015 and FY2016 is currently an Aggregate Earnings Per Share Measure. No payment is made if the entry point is not met. Payments from these plans are in cash. In order to align Executive Officers with shareholders, cash payments earned from these plans are factored up or down according to the share price movement during each three year plan period. The long term incentive plan's payment levels for Executive Officers range between 0 and 150% against each individual's base salary dependent upon the management grade.

The Long Term Incentive Plan starting from 2014 requires Executive Officers and other eligible participants to mandatorily invest 50% of any cash LTIP proceeds to purchase ordinary NSG shares. The mandatory investment leads to further alignment of the Executive Officers with shareholders, allowing Executive Officers to enjoy the benefits of share ownership and continue to be motivated to help build shareholder value. The mandatory investment in shares applies to all eligible participants including Executive Officers who are non-resident in Japan.

Share retention and alignment with shareholders is further achieved by the use of shareholding targets. Shareholding targets are set for each Executive Officer and are expressed as a percentage of basic salary. It is expected that over a period of time via the LTIP Executive Officers will build their shareholding to meet the targets. Assessment of progress towards the shareholding targets will be reviewed annually. The shareholding target for Executive Officers is currently between 50 and 100% of basic salary dependent upon the management grade. The target levels will continue to be reviewed by the Compensation Committee in line with market practice.

### (iii) Compensation Policy for Independent External Directors

The role of Independent External Directors is to supervise all Group business from their independent and objective standpoint as well as to engage in the material decision-makings as members of the Board of Directors. In order for them to fulfill this role adequately and effectively, and for the Group to retain individuals with the capability and experience required, the appropriate compensation level of Independent External is set based on comparisons with other companies using benchmark data provided by specialist external advisers.

Independent External Directors receive fees for the performance of their duties. They are not eligible for performance-related bonuses or awards under long-term incentive plans.

Independent External Directors receive additional reward if they act as Chair at either the Board or one of the other Committees.

## 7. Status of Corporate Governance

### (1) Policy and Structure

The Group adopts a Company with Three Committees structure, under which we intend and seek to introduce additional safeguards for shareholders, increase the transparency of management, and enhance corporate governance by separating the functions of execution and oversight, with the role of the Independent External Directors strengthened.

NSG Group established the “NSG Group Corporate Governance Guidelines” supporting the Principles of the TSE Corporate Governance Code which took effect on 1 June 2015. These Guidelines provide the basic principles and framework of the corporate governance for the Group to enhance its corporate values in a sustainable manner, on a medium-to-long term basis, and thus increasing the common value of the Group for our various stakeholders including our shareholders.

### (2) Management System

- A) Board of Directors** decides or approves matters delegated to it by resolution of the General Meeting of Shareholders as well as especially important matters on the execution of the Company's business, in addition to the matters provided by laws and ordinances or by the Articles of Incorporation, and supervises the execution of duties by Directors and Executive Officers.
- B) Nomination Committee** decides the details of the agenda items on appointment and removal of Directors to be submitted to the General Meeting of Shareholders, and give recommendation or advice on candidates for Executive Officers to the Board of Directors.
- C) Audit Committee** conducts audits of the execution of duties by Directors and Executive Officers, prepares audit reports, and decides the details of agenda items on the appointment and removal of Accounting Auditor, as well as their non-reappointment.
- D) Compensation Committee** makes decisions on principles with respect to determination on compensations for Directors and Executive Officers, and thereunder individual compensations of Directors and Executive Officers.
- E) Management Committee** guides management operations of the Group and monitor implementation of development of such management operations.

Note: Above is the policy amended by the resolution of the Board of Directors held on 26 March 2015 in accordance with "the Act on the Partial Revision of the Companies Act" (Act No. 90 of 2014) which took effect on 1 May 2015.

**(4) Summary of the manner of Operation Status of “Systems to Ensure Execution of Duties by Executive Officers are Compliant with Laws and Articles of Incorporation and to Secure Appropriateness of Operations, etc.”**

We have operated in accordance with the above (3) “Systems to Ensure Execution of Duties by Executive Officers are Compliant with Laws and Articles of Incorporation and to Secure Appropriateness of Operations” throughout FY 2016.

Main actions were as follows:

**1. Actions with regard to the Group’s Ethics and Compliance**

- The Group has revised the previous “NSG Group Code of Conduct” and rebranded it as “NSG Group Code of Ethics” in April 2015 so that all Group’s employees can deepen their understanding more of what the ethical conduct is and actually act in such a manner. At the same time, we expanded the “NSG Group Reporting of Concerns line” and renamed it as “NSG Group Ethics & Compliance Hotline”, through which employees in all regions in which the Group operates can report ethically-concerned matters and behaviors in their own languages. In FY 2016, 46 reports were received via the Hotline.
- The Group appointed the Ethics champions in each region and held the workshops in order to familiarize the Group’s employees with the Code and Hotline. The Code is translated in 20 languages and shared on the Group’s intranet.
- Online trainings regarding competition law compliance and anti-bribery and anti-corruption continue to be provided to the Group’s key roles. In addition, the Group’s Chief Ethics and Compliance Officer periodically issues Ethics and Compliance briefings to increase awareness of compliance related issues. This is translated in 11 languages and shared on the Group’s intranet.
- Ethics and Compliance function periodically reports to Audit Committee its actions made in regard of compliance including aforementioned matters.

**2. Actions with regard to the Group’s Risk Management**

- We identify and assess annually the material risks which should be controlled on a group basis in accordance with NSG Group Risk Management Policy. Group Internal Audit reviews the status of risk management and reports to Audit Committee the outcomes thereof.
- We have created and operated NSG Group Insurance Policy pursuant to which those risks adequate for transfer by such including loss from natural disasters are insured on a group level basis. .
- We have, in preparation for potential major incidents and calamities, organized and constituted a major incident management team at and for each operating site where major incident management plan is also prepared and in operation, on the basis of NSG Group Business Continuity Policy and Major Incident Guidelines..
- Each Strategic Business Unit (SBU) and function which supports SBUs manages and controls risks associated with execution of its own duties. In addition, we also established NSG Group Entities Management Policy in order to manage and control risks with regard to not only on a SBU or function basis but also on a Group entity basis. As such we comprehensively identify, manage and control risks in relation to the Group entities.
- Executive Officers retain and manage documents, records and any other information regarding their performance of duties in accordance with the NSG Group Record Retention Policy and IS Security Policy.

### **3. Actions to Ensure the Group's Efficient and Effective Management**

- The Group has Management Committee (MC) as advisory board for the President/Chief Executive Officer (CEO) in order for the policies and goals established by the Board of Directors to be efficiently and adequately carried out. 10 MC meetings were held during FY2016.
- We have promoted the initiative of separation of oversight and exercise role whereby we strengthen the supervisory role and duties of the Board over the executives whilst making necessary delegation of powers and authorities to the executives, thus seeking to enhance transparency and agility of whole management process.
- We set in place the internal rule clarifying the roles and decision-making authorities of each layer of management from Representative Executive Officers to each regional SBU heads. As such the Group operates the organization in which we can make business decisions appropriately and timely addressing changes of market and business environment etc.
- We systemize authorization flow process for efficient and effective business management, including in relation to performance control against progress or results of management plans such as long and medium-term plan or annual plan and approval process for capital expenditures requisition.
- We operate the organization with its reporting lines clarified by having the specific organization charts by each SBU and function which supports SBUs.

### **4. Actions to Ensure the Effectiveness of the Group's Audit**

- Group Internal Audit implements audits on a group basis in accordance with annual audit plan agreed by Audit Committee, and reports such audit results to Audit Committee, Executive Officers and external Accounting Auditor.
- Three dedicated Support Staffs of the Audit Committee are appointed for assistance of Audit Committee, and report to and provide necessary information to Audit Committee.
- A member of Audit Committee and Support Staff of Audit Committee attends internal material meetings such as MC in order to ensure the effectiveness of their audit. They have rights to access necessary important documents and so on for their audit.
- Audit Committee periodically meets with Group Internal Audit and other internal control functions and exchange views with them.
- Audit Committee meets with the Accounting Auditor on a periodical and as-necessary basis, keeping close communication with them.
