NSG Glass selected for ISUZU ERGADUO, Japan's first hybrid joint bus

TOKYO (June 14, 2019) – NSG Group announced today that its glass products have been selected for ISUZU ERGADUO, the first hybrid joint bus in Japan.

Responding to mass-transport needs during large-scale events and in tourist sites, the hybrid joint bus has a maximum capacity of 120 passengers. The windshield and side windows equipped with NSG glasses help to keep a clear and wide field vision for handling the extended 18-meter body length, while providing a comfortable and bright interior for the passengers.
