PILKINGTON AUTOMOTIVE SCOOPS JAGUAR LAND ROVER'S SUPPLIER EXCELLENCE AWARD

Pilkington Automotive was one of the 15 suppliers recognised for their outstanding performance during Jaguar Land Rover's Annual Supplier Excellence Awards Ceremony on 15 May 2019. The Awards were presented for overall performance in 2018 in three categories: Non-Production Purchasing, Production Purchasing and Product Engineering.

Ian Harnett, Jaguar Land Rover Director of Global Purchasing, commented: 'This year, we have faced unprecedented challenges across our business. Despite this, we have continued to produce more desirable, more refined and better quality cars than ever before. We could not achieve this without the suppliers that underpin our business.'

Tony Fradgley, Global Head of Automotive at NSG Group explains; 'I am absolutely delighted for the recognition from Jaguar Land Rover. We strive hard to meet our customers' expectations and this award is an acknowledgement of our strong relationship'.

NOTES TO EDITORS

Pilkington Automotive Limited, part of the NSG Group, is a world leader in Automotive glazing, supplying both the Original Equipment and Automotive Glass Replacement markets. With 39 operations in 16 countries across Europe, Japan, North America, South America, China and South East Asia, Pilkington Automotive supplies glazing for more than one in five of the world's light vehicles.
