WHO ARE WE?

The NSG Group is a global leader in glass manufacturing in three business areas: Architectural, Automotive and Creative Technology.

Our mission is to change our surroundings and improve our world. We work towards our Vision which is based on the strong belief in our long-held values: sincere and ethical culture, commitment to safety and technology and respect for people.

THE ROLE

The position is within the Thin Film Technology Resource Group, part of the global R&D function. This group is responsible for developing new coated products and processes to support the NSG Group's goal of expanding its value-added business and providing technical support to commercial and manufacturing teams.

The successful candidate will join a team investigating new coatings applied through spray coating, sputter coating, and chemical vapor deposition. They will work on various projects, ranging from short-term incremental developments to longer-term, broader research initiatives. Responsibilities include operating and maintaining laboratory coating and testing equipment, depositing thin films on glass, preparing samples, conducting durability tests, and measuring coated glass properties such as optical characteristics, electrical properties, and film thickness.

WHAT ARE WE LOOKING FOR?

You and your Skills

- An Innovative, self-motivated team player with a genuine interest in science and technology.
- Good organisational skills with the ability to prioritise workload.
- Enjoys active involvement in development/problem solving activities both in a lab and in production facilities.
- Good GCSE/A Level results in Maths and Science.
- A BTEC or HNC qualification in a scientific subject and experience in a laboratory technician role would be a distinct advantage.
- Experience of using Microsoft Applications.

Benefits

- 25 days holiday plus declared public holidays.
- Staff Bonus Scheme – up to 10% of basic salary, not guaranteed.
- Group Personal Pension Plan – a defined contribution scheme with up to 8% employer contribution.
- Continual professional development.
- On site fitness activities and events.
- On site car parking, electric car charging ports & restaurant.

We give everyone an equal opportunity to contribute to their full potential and harness the richness of ideas.

If you believe you can take on the challenge, we very much want to hear from you. Application is by CV and covering letter to RecruitmentVacanciesUK@pl.nsg.com quoting job code **PTML P25-09**.
