WHO ARE WE?

The NSG Group is a global leader in glass manufacturing in three business areas: Architectural, Automotive and Creative Technology.

Our mission is to change our surroundings and improve our world. We work towards our Vision which is based on the strong belief in our long-held values: sincere and ethical culture, commitment to safety and technology and respect for people.

THE ROLE

A vacancy has arisen for an Analyst within our Supplier Development Capability and Sustainability team.

The successful candidate will collaborate within cross-functional teams to drive supplier development, capability, innovation, and sustainability initiatives across global regions. Independently develop and deliver insightful analytical reports to support Supplier Development, Sustainability & Capability, and Category teams.

They will prepare high-quality reports on supplier performance. Provide regular updates on supplier capability and sustainability metrics. Support the Capability and sustainability Manager and Supplier Development and Sustainability Director in evaluating supplier performance and improvement initiatives. Act as the central point of contact for all reporting and analytics related to supplier development and sustainability within the category team. Prepare materials and insights for supplier risk and sustainability governance meetings. Provide market-based insights and data-driven recommendations to support supplier strategy development and capability roadmaps. Conduct independent market research and data analysis to assess global trends in supplier development, sustainability practices, and innovation adoption. Lead the coordination of the annual Scope3 reporting, ensuring timely and accurate input from all category team members. Develop and distribute regular reports on supplier development progress, sustainability metrics, and capability-building initiatives. Collaborate with the procurement reporting team to ensure accurate supplier data in, reporting systems. Manage and continuously improve the SharePoint site for the Supplier Development and Sustainability function, ensuring it serves as a central hub for tools, templates, and updates.
