## WHO ARE WE?

The NSG Group is a global leader in glass manufacturing in three business areas: Architectural, Automotive and Creative Technology.

Our mission is to change our surroundings and improve our world. We work towards our Vision which is based on the strong belief in our long-held values: sincere and ethical culture, commitment to safety and technology and respect for people.

## THE ROLE

We are looking for a Melting Process Technologist to join our Decarbonisation Technology Team.

The successful candidate would drive efficiency improvements within the melting process. They would help us meet our decarbonisation and sustainability goals, improve profitability and deliver Research & Development projects. The successful candidate would also be required to provide technical support to sites around the world, often with overseas travel involved.

## WHAT ARE WE LOOKING FOR?

### You and your Skills

- A degree qualification in Chemical Engineering, Chemistry, Physics, Maths, or similar scientific subject, is required.
- 3-5 year's relevant experience, although previous experience in the glass industry is not essential, as a full training programme will be provided.

### Benefits

- 25 days holiday plus declared public holidays.
- On site car parking.
- On site electric car charging ports.
- On site canteen.
- Staff/Management Bonus scheme – up to 10% of basic salary, not guaranteed.
- Holiday salary exchange – dependant on grade.
- Group Personal Pension Plan – a defined contribution scheme with up to 8% employer contribution.
- On site fitness activities and events.
- Flexibility with working hours.

We give everyone an equal opportunity to contribute to their full potential and harness the richness of ideas.

If you believe you can take on the challenge, we very much want to hear from you. Application is by CV and covering letter to [RecruitmentVacanciesUK@pl.nsg.com](mailto:RecruitmentVacanciesUK@pl.nsg.com) quoting job code **PTML P25-04**.
