WHO ARE WE?

The NSG Group is a global leader in glass manufacturing in three business areas: Architectural, Automotive and Creative Technology.

Our mission is to change our surroundings and improve our world. We work towards our Vision which is based on the strong belief in our long-held values: sincere and ethical culture, commitment to safety and technology and respect for people.

THE ROLE

This position is within the Thin Film Technology Resource Group, part of the global R&D function. This group is responsible for developing new coated products and processes to support the NSG Group's goal of expanding its value-added business and providing technical support to commercial and manufacturing teams.

The successful candidate will join the On-Line Coating team investigating new coatings applied through chemical vapour deposition. They will work on various projects, ranging from short-term incremental developments to longer-term, broader research initiatives. The main project scope will involve identification and assessment of new precursor options coupled with the development of new and existing products and processes. The role has a broad mix of potential activities including operation and maintenance of laboratory equipment; laboratory deposition and assessment of thin films; data gathering and analysis and manufacturing technical support. The role is primarily based in the laboratories near Ormskirk however it offers the opportunity to progress development to line trials at our Global manufacturing locations.

WHAT ARE WE LOOKING FOR?

You and your Skills

- A degree in a Chemistry or Materials Science related discipline.
- Experience and Knowledge of safe chemical handling and laboratory practice.
- Experience with the Microsoft Office suite.
- Good practical skills and attention to detail.
- Good communication skills, both written and verbal.
- Effective time management with the ability to prioritize tasks.
- Ability to work as part of a team and individually.

Benefits

- 25 days holiday plus declared public holidays.
- Staff Bonus Scheme – up to 10% of basic salary, not guaranteed.
