Other Matters related to this Convening

- ◎ Reference Materials to Proposals at the General Meeting of Shareholders and those Business Report, Consolidated Financial Statements, and Financial Statements which need to be attached to this Convening Notice are all as duplicated and shown in pages from 5 to 57 below, with the exclusion of Notes to the Consolidated Financial Statements and Notes to the Financial Statements which are posted and made available on the Company's website at <http://www.nsg.com/> in accordance with the relevant laws and ordinances, and Article 14 of the Articles of Incorporation. Accordingly, those Consolidated Financial Statements and Financial Statements attached to this Convening Notice respectively constitute such part of Consolidated Financial Statements and Financial Statements as were audited by the Accounting Auditor and the Audit Committee in the course of their conduct of audit in order to prepare for and produce their respective audit reports.
- ◎ If it should become necessary to make any amendments to any of the Reference Materials to Proposals at the General Meeting of Shareholders, Business Report, Consolidated Financial Statements and/or Financial Statements, such amendments shall be notified to you by mail, or on the Company's website at <http://www.nsg.com/>.
- ◎ Voting results of the meeting will be filed and shown via EDINET (<http://disclosure.edinet-fsa.go.jp/>) in the form of an Extraordinary Report (in Japanese only), and also disclosed on the Company's website at <http://www.nsg.com/> (in English) and at <http://www.nsg.co.jp/> (in Japanese). You are kindly asked to acknowledge and confirm that these actions are intended to operate as substitute in place of the issue and posting of a resolution notice.

Exercising Voting Rights

- When attending the meeting on the day
Please present the enclosed voting rights exercising card to the reception.
- When exercising voting rights in writing
Indicate your approval or disapproval of the proposals in the enclosed voting rights exercising card and send it so that it reaches us no later than 5:45 p.m. (Japan time) of 26 June (Wed.) 2019.
- When exercising voting rights via the Internet
When exercising voting rights via the Internet, please carefully read "**Information concerning exercising voting rights via the Internet**" as shown below (page 3) and then exercise the rights by no later than 5:45 p.m. (Japan time) of 26 June (Wed.) 2019.

Electronic Voting Platform for Institutional Shareholders

The Electronic Voting Platform operated by ICJ, Inc. is available for institutional shareholders.

Information concerning Exercising Voting Rights via the Internet

Exercising your voting rights via the Internet can be carried out only through the website above specified by the Company.

- Exercise of voting rights by “Smart Voting” (available only in Japanese)

Please scan the “Smartphone use voting right exercise website login QR cord” on the lower right of the enclosed voting rights exercising card with a smartphone or tablet. The URL that then appears will bring you to the voting right exercise website screen by clicking on it. There are two methods for exercise of voting rights: i.e., (1) separately indicating your position on each proposal; or (2) simply indicating your “approval” for all proposals recommended by the Company in a comprehensively way. Please follow the screen instructions to exercise your voting rights.

- Exercise of voting rights by the voting rights code and password (available only in Japanese)

Please access the website for exercising voting rights, <https://www.web54.net>, with a personal computer or other Internet-capable device of yours and enter your approval or disapproval for each proposal by using the voting rights code and password described in your enclosed voting rights exercising card and afterwards follow the screen instructions shown in the screen.

Voting Rights

- When a shareholder exercises his or her voting rights both in writing and via the Internet, the voting rights exercised via the Internet shall take precedence over the one in writing. When a shareholder exercises his or her voting rights multiple times via the Internet, the last valid exercise of voting rights via the Internet shall be considered as the shareholder's final vote.
- Though voting rights may be exercised via the Internet till 5:45 p.m. (Japan time) of 26 June (Wed.) 2019, it would be greatly appreciated if you could kindly exercise the rights earlier.

Password and voting rights code

- The password is very important information to enable us to identify those who would exercise the voting rights as our shareholders themselves truly, so please treat it very carefully.
- If you mistakenly enter a wrong password on a certain specified number of occasions, this password will become invalid. If you wish the reissue of another password please follow the instruction shown on the screen.
- The voting rights code written on voting rights exercising card shall be valid only for this General Meeting of Shareholders.

Notes:

- Messrs. Günter Zorn, Toshikuni Yamazaki, Yasuyuki Kimoto, Masatoshi Matsuzaki, Yuji Takei and Jörg Raupach Sumiya are all candidates for the External Directors stipulated in Article 2.15 of the Companies Act. In addition, all of them except Mr. Yuji Takei have been notified to Tokyo Stock Exchange (hereinafter called "TSE") as Independent Directors. The Company has on its own created and applied more stringent criteria with respect to such independency of directors considering their relationships with the Group itself, Group's directors and/or Group's major shareholders, which five candidates for External Directors also meet. For the detail of the criteria, please see pages from 15 to 16.
- The Company has entered into an agreement on limitation of liabilities with all the candidates of the External Directors whose tenure is expiring (Messrs. Günter Zorn, Toshikuni Yamazaki, Yasuyuki Kimoto, Masatoshi Matsuzaki and Yuji Takei) respectively to the effect that the level of the liability of each of the External Directors in having performed their duties in good faith and without gross negligence on their part should be capped by the amount allowed by law. The Company further intends to enter into an agreement on similar limitation of liability with Dr. Jörg Raupach Sumiya once elected, to the effect that the level of his liability in having performed his duties in good faith and without gross negligence on his part should be capped by the amount allowed by law.

153rd Business Report of Nippon Sheet Glass Company, Limited

From 1 April 2018
To 31 March 2019

1. Matters Relating to the Current State of the Company's Group

(1) Overview and Results of Business Activities

During the year to 31 March 2019 (FY2019), the Group experienced sluggish conditions in European and North American automotive markets, particularly so later in the year, but this was more than offset by stable or improving conditions in other areas. European architectural markets continued to be strong with high levels of demand leading to a robust pricing environment. Automotive markets became progressively difficult during the year however, with relatively weak domestic demand and subdued conditions in certain key export markets. In Asia, architectural markets were flat, although demand for solar energy glass was above the previous year. Automotive markets in Asia were at similar levels to the previous year. In the Americas, architectural demand was strong in North America, although automotive demand gradually weakened during the year. In South America, vehicle sales continued to recover in Brazil, although sales in Argentina remain at a low level. The Group's technical glass markets were positive with improving volumes being experienced in several areas. Group revenues improved from the previous year due to an increase in volumes, and, also prices in certain areas. Profitability also improved as the higher volumes were only partly offset by an increase in input costs.

As a consequence, the Group's year-end results were as shown in the table below.

Consolidated Revenue		Consolidated Operating Profit	
¥612,789m	(up 2.3%)	¥36,855m	(up 3.4%)
Consolidated Profit before Taxation		Consolidated Profit for the Period	
¥22,730m	(up 2.6%)	¥14,378m	(up 81.8%)
Consolidated Profit Attributable to Owners of the Parent			
¥13,287m	(up 115.6%)		

Notes:

1. Operating profit in the above table is defined as being operating profit stated before exceptional items.
2. The Group has adopted IFRS 15 'Revenue from Contracts with Customers' effective from FY2019. Due to the change in accounting policy, in accordance with IAS 8, the Group has restated its comparative information in the consolidated financial statements for the previous year and use such information in this report.

The performance by segment is as follows.

Architectural Glass Business

Revenue ¥ 247,348 million

Operating profit ¥ 25,811 million

Main Focus of the Business :-

Architectural, representing 41 percent of the Group's annual revenue, includes the manufacture and sale of flat glass and various interior and exterior glazing products within commercial and residential markets. It also includes glass for the Solar Energy sector.

Ratio of sales to Group revenue

Revenue Operating profit (Millions of yen)

The Architectural business recorded revenues of ¥ 247,348 million (FY2018 restated ¥ 237,966 million) and an operating profit of ¥ 25,811 million (FY2018 restated ¥ 26,246 million).

Architectural revenues improved from the previous year with higher volumes across most regions, and increased dispatches of glass for solar energy. Despite the strong underlying trading conditions, profits fell, being affected by the Group's furnace cold repair schedule and an increase in energy-related input costs.

In Europe, representing 39 percent of the Group's architectural sales, markets continued to be positive with strong demand leading to high levels of capacity utilization and a robust pricing environment. Profits increased slightly, despite a cold repair in Germany earlier in the year and input cost increases.

In Asia, representing 37 percent of the Group's architectural sales, revenues improved whilst profits were similar to the previous year. Demand in South East Asia was generally strong although new competitor capacity helped generate an increasingly competitive marketplace. The Group benefitted from an increase in sales of glass for solar energy however. Results improved in Japan due to improved volumes and prices, despite an increase in input costs.

In the Americas, representing 24 percent of the Group's architectural sales, revenues improved, whilst profits fell slightly, largely due to the adoption of hyperinflationary accounting in Argentina. Underlying market conditions in Argentina continue to be in line with the Group's expectations. In North America, the Group benefitted from the full operation of the Ottawa plant and a buoyant domestic market, although the second half of the year was affected by lower yields for certain VA products and weaker prices due to higher imports and increased competitor capacity.

Automotive Glass Business

Revenue ¥ 314,645 million

Operating profit ¥ 15,118 million

Main Focus of the Business :-

Automotive, representing 51 percent of the Group's annual revenue, supplies a wide range of automotive glazing for new vehicles and for replacement markets.

Ratio of sales to Group revenue

Revenue

Operating profit

(Millions of yen)

The Automotive business recorded sales of ¥ 314,645 million (FY2018 restated ¥ 311,428 million) and an operating profit of ¥ 15,118 million (FY2018 restated ¥ 14,209 million).

In the Automotive business, revenues were slightly above the previous year, and profits also increased with strong European results experienced during the earlier part of the year.

Europe represents 45 percent of the Group's automotive sales. Results improved in the Group's original equipment (OE) business, although demand softened markedly from the third quarter of the year, affected by both a decline in domestic light-vehicle sales and weakening exports of luxury vehicles. Results also improved in the Automotive Glass Replacement (AGR) business with an increase in volumes and an improving mix of VA products from the previous year.

In Asia, representing 22 percent of the Group's automotive sales, revenues and profits both increased from the previous year. In Japan, light vehicle sales were similar to the previous year. The Group's OE revenues improved despite interruptions to the automotive supply chain caused by natural disasters. Results in the AGR business improved as a consequence of increased volumes.

In the Americas, representing 33 percent of the Group's automotive sales, revenues and profitability were both slightly higher than the previous year. In North America, the Group's OE volumes reflected a progressive weakening during the year of light-vehicle sales in the region. Profitability improved in South America, with a further recovery of volumes from the previous year in Brazil. In Argentina, the Group's automotive results were impacted by the adoption of hyperinflationary accounting as noted above.

Technical Glass Business

Revenue ¥ 49,106 million

Operating profit ¥ 8,062 million

Main Focus of the Business :-

Technical Glass, representing 8 percent of the Group's annual revenue, comprises a number of discrete businesses, including the manufacture and sale of very thin glass for small displays, lenses and light guides for printers, as well as glass fiber products, such as battery separators and glass components for engine timing belts.

Ratio of sales to Group revenue

The Technical Glass business recorded revenues of ¥ 49,106 million (FY2018 restated ¥ 48,429 million) and an operating profit of ¥ 8,062 million (FY2018 restated ¥ 5,403 million).

In the fine glass business (previously the display business), improving revenues and previous-year cost reduction efforts provided a strong foundation for a further improvement in results. In the information devices business, demand for glass components used in printers and scanners, declined slightly. Demand for glass cord used in engine timing belts also softened, particularly in Europe and China towards the end of the year in line with conditions in automotive markets. Metashine® product sales increased with demand being strong in both the car paint and cosmetic fields. In other areas, ISS battery separator demand in Japan continued to be at a good level.

Other Operations and Eliminations

The Other Operations and Eliminations recorded revenues of ¥ 1,690 million (FY2018 restated ¥ 1,074 million) and operating costs of ¥ 12,136 million (FY2018 restated cost of ¥ 10,226 million).

This segment covers corporate costs, consolidation adjustments, certain small businesses not included in the segments covered above and the amortization of other intangible assets related to the acquisition of Pilkington plc. Operating costs and consolidation adjustments incurred in Other Operations and Eliminations increased from the previous year due partly to the inclusion of the Group's newly established Business Innovation Center, an organization specifically tasked with accelerating new business development.

(2) Capital Expenditure

The capital expenditure of the Group totaled ¥32,150million during the fiscal year under review, broken down by segment as follows:

(Millions of yen)

Business	Expenditure
Architectural	¥ 15,150
Automotive	¥ 14,110
Technical Glass	¥ 1,919
Other	¥ 971

(3) Financial Situation

Total assets at the end of March 2019 were ¥ 761,869 million, representing a decrease of ¥ 26,723 million from ¥ 788,592 million at the end of March 2018 (restated). Total equity was ¥ 132,506 million, representing a decrease of ¥ 11,209 million from the restated March 2018 figure of ¥ 143,715 million. Total equity decreased, as the profit recorded for the period and an increase in asset values in Argentina following the adoption of hyperinflationary accounting, were more than offset by other movements, include exchange differences arising on the strengthening of the yen compared to the Group's other operating currencies.

Net financial indebtedness increased by ¥ 11,231 million from 31 March 2018 to ¥ 317,701 million at the period end. Gross debt was ¥ 371,508 million at the period end. As of 31 March 2019, the Group had un-drawn, committed facilities of ¥ 74,591 million. Cash inflows from operating activities were ¥ 29,030 million. Cash outflows from investing activities were ¥ 28,143 million, including capital expenditure on property, plant, and equipment of ¥ 28,125 million. As a result, free cash flow was an inflow of ¥ 887 million.

(4) Issues to be Addressed

Adopting "Our Vision" as new management principles

The NSG Group marked the 100th anniversary last year and taking that opportunity, we developed new management principles called "Our Vision". In "Our Vision", the Group's "Mission: Core Purpose" is defined as 'improving our world by changing our surroundings'. And as our

"Aspiration: Desired Future Position", we aim to 'become the most trusted partner in all industries we work in through innovation.' Furthermore, as "Core Values: How we work" to live up to our Mission and Aspiration, we set forth six action principles, namely, to respect others and unleash their potential; to exemplify trust and integrity; to ensure efforts to serve society; to take the initiative; to embrace challenges and learn from failure; and to follow through to get results."

Under "Our Vision" as new management principles, we are determined to contribute to improve our society by providing glass plus enhanced value added products and services that meet a broad range of needs from customers and the society.

Our Vision

The Group aims to transform into VA Glass Company (VA comes from "value added") as advanced in its long-term strategic vision and formulated its "Medium-term Plan Phase 2" (hereinafter called "MTP Phase 2") covering the three years from FY2018 to FY2020 as the plan to be delivered with group-wide strengths and resources. Its principal targets are to achieve financial sustainability and to start transforming into VA Glass Company. The financial targets for MTP are to achieve the return on sales (*) of 8 percent or more and net debt/EBITDA of three times. We consider the return on equity of over 10 percent and the equity ratio of around 20 percent as the milestones envisioned to be attained in the year when those plans are achieved.

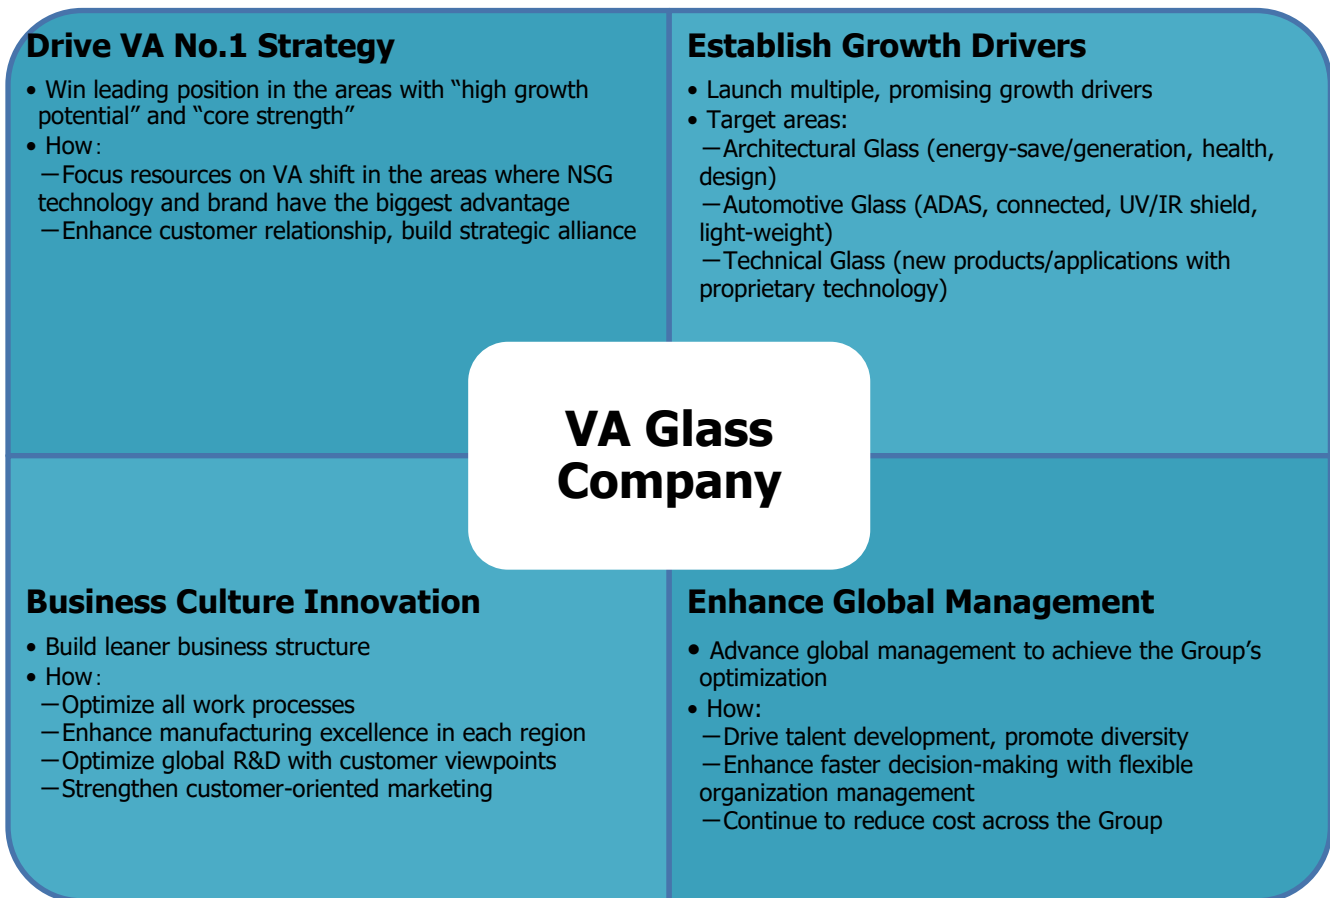

*Note: On the basis of trading profit before exceptional items and amortization arising from the acquisition of Pilkington Plc.

The basic approaches of MTP Phase 2 are:

- To accelerate and evolve VA strategies to build a robust profit base for sustainable growth; and
- To review each work process to develop a leaner business structure.

Specifically, the followings are the four key specific measures of MTP Phase 2:

1. Drive VA No.1 strategy – focus resources on the VA shift in the areas with high growth potential and NSG’s core strength to aim for a leading market position
2. Establish growth drivers – accelerate generation of new profitable growth with focus and selection
3. Business culture innovation – continue to optimize each work process towards a leaner business structure
4. Enhance global management – advance global management to achieve the Group’s optimization

Performance in FY2019 and Progress of MTP Phase 2

In the 1st half of FY2019, the Group recorded higher sales revenue and net profit year-on-year thanks to robust market environment in general and especially in Europe as well as the growth in VA product sales. However, with the start of the 2nd half of the year, the automotive market in Europe began to slow down, certain energy-related costs kept rising and the value of South American currencies deteriorated, which led to lower revenue and higher profit year-on-year. On a full-year basis in FY2019, the Group's sales revenue was 612.8 billion yen (2.3% higher than FY18) and trading profit was 36.9 billion yen (3.4% higher than FY18). Profit attributable to owners of the parent in FY2019 was 13.3 billion yen (115.6% higher than FY18). The trading profit was higher than the previous year for six consecutive years. The bottom line was positive and kept growing for three years successively.

Cash flow was 0.9 billion yen, lower than the previous year partly because of the capital investment we decided to make in FY2019 for the growth in future.

In FY2019, which is the 2nd year of MTP phase 2, we managed to accelerate our actions to achieve the targets by adding "Growth" to the basic policy of "Shift to VA" and putting up "Shift to VA + Growth" as an enhanced policy. VA sales ratio increased to 46% driving improvement in profit. Also, with "Growth" or the expansion of top line in perspective, we decided to boost our capacity to manufacture glass for solar panel in Vietnam and North America and to expand a float glass plant in Argentina, which is regarded as a promising market. In addition, Business Innovation Center (BIC) was established in July 2018 for the purposes of further accelerating the endeavours to develop new businesses and enhance customer values. BIC is expected to take an initiative in such ambitious areas as in life science and Industry 4.0.

In light of the improved financial condition enabling us to generate profit and cash flow in a stable manner, the Group distributed dividends on ordinary shares in FY2019 for the first time since FY2012. It is the Group's basic profit distribution policy to declare the dividends in a stable manner on the basis of our sustainable business performance. Ordinary dividend distribution for the current term was resolved in the Board of Directors meeting on 10 May 2019. The Group also partially redeemed class-A shares for the amount of 5 billion yen in FY2019. We intend to continue making partial redemption of class-A shares while taking into account the balance between earned profit as well as generated cash flow and the financing needs for new investment projects to the extent of not eroding our net equity. A resolution on redemption of another 5 billion yen is already passed in the Board of Directors meeting on 10 May 2019. In future, after all Class A Shares have been redeemed and cancelled, while we maintain this basic policy in all respects, we will continue to use the sincere efforts to declare dividends with introduction of consolidated dividend payout ratio of 30 percent as a guide.

Progress has been achieved by executing the four key measures for growth set forth in MTP Phase 2. By driving VA No.1 strategy, we succeeded in establishing an advantageous position in the online coating area of architectural glass business and adding up order volume for VA automotive glass. In order to establish growth drivers, we are accelerating commercialization of new businesses by registering promising development themes as "Star Projects". In the arena of business culture innovation, productivity has been improved in the manufacturing lines for automotive glass through "enhancement of MONOZUUKURI or Manufacturing Excellence" and the attitude of "Customer First" has been disseminated extensively not only within the sales departments but across the Group through "reinforcement of marketing activities". As a means to advance global management, a shared service center was set up in four locations around the world in an attempt to consolidate back office operation of the Group. The Group also made Inclusion & Diversity Declaration to promote inclusion and diversity among employees. As a financial measure, we issued class-A shares to bolster our net equity while achieving the target of financial cost reduction one year earlier, which contributed to push up profit in FY2019.

The progress of MTP Phase 2 in comparison with the targets in FY2020 is summarized below:

Return on Sales (ROS)	Target: 8% or more	FY2019 actual:	6.3%
Net debt /EBITDA ratio	Target: x 3	FY2019 actual:	x 4.9

*Note : As actual results in FY2019, Return on Equity (ROE) was 10.3% and Net equity ratio was 16.2%.

The Group anticipates the global architectural and automotive glass markets to be mixed and vary from region to region but increase its degree of severity generally in FY2020. Against such a backdrop, the Group's sales are expected to increase slightly with increased sales of VA products.

In Europe, the market for architectural glass is expected to remain stable. While certain raw materials, energy and other input costs are forecasted to continue to rise, we aim for further expansion of VA products including high transparency glass. The European automotive market is expected to slow down and sales expansion would not be the case for FY2020 but we expect to push up the ratio of VA product sales such as highly tolerant automotive glass for head-up displays and improve our operational efficiency. Brexit remains to be carefully watched but we anticipate its impact to be relatively limited because glass products are basically consumed in the same region as it is produced.

In Asia and especially in Japan, solid demand is anticipated for commercial buildings in the architectural glass market due to urban redevelopment and reconstruction of old buildings while the demand for residential application is forecasted to level off due to an increase of consumption tax. The Group intends to improve performance by increasing the sales of Spacia™ and other VA products, further cost saving and restructuring initiatives. Although the automotive glass market is anticipated to be in line with FY2019, the Group expects a rise in production cost. We forecast the architectural glass market in Southeast Asia will remain steady and the demand volume for solar battery panel will grow in that region.

We anticipate the architectural glass market in North America will remain robust and the Group plans to maintain a high VA product sales ratio while sales price is expected to fall due to severer competition and cost is expected to go up. The automotive glass market in the region will either remain unchanged or may see a marginal decline while we expect to reap the harvest of our continuous efforts in improving operational efficiency. Further recovery of automotive sales is anticipated in Brazil.

In technical glass business, the markets for each business division are forecasted to remain steady and trading performance is expected to improve further with an increased sales ratio of VA products such as glanova™ new composition thin glass and battery separator to meet the growing demand for ISS (Idling Stop and Start) though total revenue will be scaled down as a result of disposal of Nippon Sheet Glass Environment Amenity Co., Ltd. in April 2019.

Across the Group as a whole, while efforts will be maintained to expand the sales of VA products and reduce costs, trading profit in FY2020 is expected to fall slightly below the previous year due to worldwide economic slowdown, an increase of certain raw materials, energy and other input costs and increment in production costs associated with promotion of VA products. Financial cost is being reduced as envisioned in the plan excluding the impact of IFRS 16 Leases accounting standard to be introduced in FY2020. Joint ventures and associated companies, including those in South America, are expected to have steady bottom line in FY2020 though no one-off gains are expected as we had in FY2019.

Reflecting the foregoing, the Group forecasts both operating profit and net profit for FY2020 to be slightly below year-on-year but we anticipate securing net profit exceeding 10 billion yen.

Cash flow is expected to fall in the negative territory temporarily because the funding needs for the strategic investment for future growth (in order to increase production of PV panel glass in North America and Asia and float glass for the emerging markets in South America) will peak in FY2020, but cash generating structure of the Group is steadily improving.

FY2020 is the last year of MTP Phase 2.

So far, the Group has achieved steady growth in profit with an increase of operating profit for six years successively and positive bottom line for three consecutive years by expanding VA product sales, pursuing operational efficiency improvement and cost reduction incessantly. However, in the wake of rising energy and other costs, postponed market launch of new products, delayed VA shift in some markets and frontloaded investment for future growth, financial targets for ROS and net debt/EBITDA set forth in MTP Phase 2 are unlikely to be met.

It remains unchanged that "Financial Sustainability" and "Transformation into VA Glass Company" put up as the basic goals of MTP Phase2 are the top priorities for the Group. We will continue to work hard to improve our business

profitability further under the "Shit to VA + Growth" policy in FY2020 while generating cash and reducing net debt through rigours control of working capital and capital expenditure as well as by disposing of non-core assets and businesses. In addition, we intend to continue redeeming class-A shares in FY2020 as mentioned above.

Furthermore, we consider that our challenges to be addressed by the Group are to transform our business structure into the one capable of generating stable profit while flexibly adapting to the changes in uncertainties in markets and economy, and to establish a robust profit base for sustainable growth. To this end, we will make every effort to execute our four key measures under MTP Phase 2: drive VA No.1 strategy; establish growth drivers; business culture innovation; and enhance global management, and to drive forward transformation of our business model from a commodity and mass volume oriented type to a high-value type, namely, transformation into VA Glass Company. Also, the "growth strategy" will be pursued for sustainable growth. Specifically, in the architectural field, in view of the spread of "Zero Energy Building (ZEB)", where energy consumption is offset with energy generated by a building or a house, we aim to increase the sales of energy saving glass and glass substrate for photovoltaic (PV) panel leveraging our strength in this field. Another new business opportunity is on the horizon with the spread of "Smart Window" utilizing IoT and AI. In the automotive field, where CASE, which stands for Connected, Autonomous, Shared and Electric, is the buzzword of the day, we will expand advanced VA glass business catering to customer needs in each field. In the technical glass field, we will push back our business boundaries in such fields as life science, IoT/Cloud, Energy conversion and Industry 4.0.

ESG commitment

As a member of society, the Group will proactively work on initiatives aimed at realizing sustainable growth for society. Through the sales expansion of our VA products, we will contribute to energy saving and creation while striving to reduce CO2 emissions and industrial waste in our business operation earnestly. In July 2018, the NSG Group signed Science Based Target initiative. With this, we intend to expedite our initiative to reduce greenhouse effect gas further. Education and cultivation of people and talent development group-wide continues to be the subject of our invariable agenda. With the belief that "the essence of our success in the business lies in the dynamism generated by diverse human resources", the Group recently declared to pursue and implement the Inclusion and Diversity initiative as a management commitment. We will also fulfil our corporate and societal obligations as a good corporate citizen, including by rolling out and embedding the Group Code of Ethics within the Group and through implementation of the program to secure compliance with the Supplier Code of Conduct by our suppliers as an example. Further, by continuously and intermittently pursuing and maintaining effective Governance system with transparency and objectivity ensured under the oversight of the Board of Directors to warrant the validity of these commitments, we will be persistently making efforts to contribute to the realization of a sustainable society. Further as regards and on the basis of the revisions of the Corporate Governance Code in June 2018, we have been working on an exercise to establish a corporate governance structure with a view towards enhancing our enterprise value. These activities have led us to win the highest "Gold" CSR rating from EcoVadis, CSR rating agency in France, in 2018. The Group was highly rated from the standpoints of "environment", "labour practices and human rights", "fair business customs" and "sustainable procurement" and ranked in the top 7% in the glass industry. The Group will focus on the execution of MTP Phase 2, aiming for increasing the shareholders' value.

- Messrs. Günter Zorn, Toshikuni Yamazaki, Yasuyuki Kimoto, Masatoshi Matsuzaki and Yuji Takei are External Directors as stipulated in Article 2.15 of the Companies Act. All of them except Mr. Yuji Takei have been notified to Tokyo Stock Exchange (hereinafter called "TSE") as Independent Directors. In addition to such criteria set by TSE, the Company has on its own created and applied more stringent criteria with respect to such independency of directors considering their relationships with the Group itself, Group's directors and/or Group's major shareholders, which four External Directors also meet. For the details of such criteria, please see pages from 15 to 16.
- Mr. Toshikuni Yamazaki, Chairman of Audit Committee, has specialized knowledge and expertise particularly on finance and accounting to a respectable degree with his career of Representative Director, Executive Vice President (in charge of finance, investor relations and accounting) of the major international manufacturing company.
- We have no full-time Audit Committee member appointed for the time being, given mainly that as a company with three committees, our Audit Committee has conducted and implemented its audit in an organizational manner including by liaising with the external Accounting Auditor, Group Internal Audit and other internal control functions of the Company. We have also appointed and made available certain employees as dedicated Support Staffs of Audit Committee and they report to and provide necessary information to/for Audit Committee.

(2) Compensation for Directors and Executive Officers

A) Principles of Compensation for Directors, and Executive Officers

(i) Organization & Responsibilities

The company has in place the statutory Compensation Committee (the "Committee") as adopting a "Company with Committees" structure. Its current membership consists of the four Independent External Directors of NSG Group, and one Director who concurrently serves as Representative Executive Officer. The current chairman is Mr. Yasuyuki Kimoto, an External Director. No member of the Committee is allowed to be present when matters relating to his specific compensation are being discussed. The Committee is supported by a secretariat from the Human Resources function and may use information from specialist external advisers when necessary. In addition, such member(s) of the Legal and Company Secretarial department as the Committee approves of acts as in-house legal adviser for any legal aspects or matters. During the year 2018/19, the Committee met on five occasions.

The Committee has formal authorities to determine:

- The policy on individual compensation and other perquisites payable to the Directors and Executive Officers of the Company
- Individual compensation and other perquisites payable to the Directors and Executive Officers of the Company.

The Committee may also give recommendation or advice to the Representative Executive Officer, President and CEO on the policies and details with respect to compensation for the Group's senior management other than Directors and Executive Officers, keeping a consistency with the policy of (iii) below.

(ii) Activities of the Committee in Compensation related Decision-Making Process

In the meetings held in March, May and June 2018, the Committee resolved the individual amount of basic salary, the number of stock options to be allotted, the performance indicators and method for determining the payment amount of incentives (performance-linked compensations), and the actual payment amount based on the achievement against the previous year's indicators. It monitored the progress against the relevant indicators of the running incentives in the meeting held in October 2018.

(iii) Compensation Policy for Executive Officers

NSG Group is a global business, operating in around 30 countries worldwide. The objectives of the compensation policy are to ensure that packages of employment terms and conditions are market competitive and designed in such a way as to attract, retain and motivate Executive Officers of the highest calibre on a worldwide basis in an international business.

The policy aims to ensure that each individual's basic salary and incentives are aligned with the performance of the Group and the interests of shareholders, as well as reflecting the commitment and achievements of the individuals concerned. Based on this perspective, the ratio of basic salary and incentives is, rather than specifically and equally applied, set according to individuals' management grades (which will be given by reference to the factors such as knowhow, issues and the level of accountability relevant to the responsibilities assigned). The compensation package for the Executive Officers consist of basic salary, incentives and other benefits. While some of the elements of the packages of the Executive Officers will vary depending on the market conditions in the countries in which they are directly employed, annual bonus and long-term incentive plans (constituting our performance-linked compensations) follow a global policy and are structured, designed and co-ordinated at Group level.

Salary and benefit packages are set at market competitive levels and annual performance-related payments are assessed against the achievement of key targets which are mainly financial.

The salaries of Executive Officers are reviewed annually. The policy is to broadly align salaries with market medians for a global business. In determining what are the appropriate market rates, account is taken of turnover, market capitalization and the complexity and breadth of internationalization. In reviewing salaries, account is also taken of the scope and responsibilities of the role, the performance of the individual, the progress the Company is making against its targets and plans and of salary increases planned for other managers.

Each Executive Officer participates in an annual performance-related incentive scheme. The Committee establishes the performance criteria and sets the appropriate bonus parameters. The incentive plans are based on challenging financial performance targets relating to the annual budget which is approved by the Board. The main focus in these plans is then first to ensure alignment with delivery of the target numbers assigned to Group operating profit and cash flow which are the financial performance indicators specifically important to the said budget but in relation to some of the Executive Officers of the Company those indicators such as the main four specific SBU operating profit and cash flow within the Group, either totally or individually by regions, also operate as target to be achieved. The Company ensures that such financial performance targets are clearly aligned to the overall medium term strategy of the Group. These performance indicators are also weighted as relative to and according to the duties and responsibilities had by each Executive Officer.

Performance measures for the FY2019 and FY2020 annual incentive plan for Executive Officers are mainly based on the following:

Element	Weight (%)		
	CEO, COO and CFO	Executive Officers other than CEO, COO and CFO, who are mainly responsible for specific Global SBUs	Executive Officers other than CEO, COO and CFO, who are mainly responsible for specific group functions
Group Management Operating Profit	50%	25%	25%
Group Free Cash Flow	50%	25%	25%
Global SBU Management Operating Profit	—	In relation to the results of specific SBUs they are responsible for, constituting 25% in total	In relation to the results for each and every of SBUs of the Group, constituting 25% in total
Global SBU Cash Flow from Operations	—	In relation to the results of specific SBUs they are responsible for, constituting 25% in total	In relation to the results for each and every of SBUs of the Group, constituting 25% in total

*Note: SBU means each "Strategic Business Unit" of the Group

No bonus is paid to the Executive Officers if a minimum entry level of performance is not achieved. This minimum entry level is set and approved by the Committee to ensure that the business is meeting the minimum standard of financial performance, hence ensuring adequacy of such payment along with absence of occurrences of non-financial nature having significant level of magnitude. A 'Gate' mechanism also operates for the plan, the Gate is set as an affordability threshold to allow access to payment based on achievement against the different performance measures. It is possible to achieve the Gate and still not achieve a payment, as "Entry" on the relevant performance scales have not been met. The annual bonus potential payment levels for Executive Officers range between 0 and 125% against each individual's basic salary according to the respective management grade. Individual payment amount of the annual bonus will be decided according to the level of achievement against the pre-set performance indicators.

Each Executive Officer may be invited to participate in a Long Term Incentive Plan (LTIP). These plans are designed to reward the achievement of the Group's longer term objectives over a three year period whilst concurrently designed to align the interests of the Executive Officers with those of the shareholders by requiring them to use a part of the proceeds for purchase and thus owning the shares of the Company. An LTIP may be issued annually. Therefore, at any point in time there may be up to three overlapping plans in operation. The performance criteria for these plans are in financial measures that should be strategically important for the Group on a longer-term basis.

The performance measure used in the plans that are in operation for FY2017 and FY2018 is an Aggregate Earnings

Per Share Measure. For FY2019 plan, the performance is measured by both Aggregate Earnings Per Share and Return on Sales. The Company has commenced the use of these two indicators from FY2019, in that given the current situations and environment surrounding the Company they are believed as more appropriate with a view to increasing the linkage with the Medium-term Management Plan, seeking further strengthening of the earning power and thus enhancing the shareholders' value generally. No payment is made if the entry point is not met. In order to align Executive Officers with shareholders, the award earned from these plans are factored up or down according to the share price movement during each three-year plan period. The LTIP's award levels for Executive Officers range between 0 and 150% against each individual's basic salary dependent upon the management grade. Individual award amount of the LTIP will be decided according to the level of achievement against the pre-set performance indicators.

All LTIPs incorporate Malus (ability for the value of the award to be reduced after it has been granted but before it has vested) and Clawback clauses (ability for the Group to require the participant to repay the value they receive after the award has vested). The Group can exercise these provisions if one of a list of trigger events occurs. Trigger events include the Misstatement of results, an error that causes an award to be paid at too high a level, a serious illegal act, or a material breach of the Group Code of Ethics.

Further, the LTIPs require Executive Officers (including those residing in Japan) and other eligible participants to mandatorily invest 50% of any LTIP proceeds to purchase ordinary NSG shares. The mandatory investment leads to further alignment of the Executive Officers with shareholders, allowing Executive Officers to enjoy the benefits of share ownership and continue to be motivated to help build shareholder value. The mandatory investment in shares applies to all eligible participants including Executive Officers who are non-resident in Japan.

Share retention and alignment with shareholders is further achieved by the use of shareholding targets. Shareholding targets are set for each Executive Officer and are expressed as a percentage of basic salary. It is expected that over a period of time via the LTIP Executive Officers will build their shareholding to meet the targets. Assessment of progress towards the shareholding targets will be reviewed annually. The shareholding target for Executive Officers is currently between 50 and 100% of basic salary dependent upon the management grade. The target levels will continue to be reviewed by the Compensation Committee in line with market practice.

(iv) Compensation Policy for Independent External Directors

The role of Independent External Directors is to supervise all Group business from their independent and objective standpoint as well as to engage in the material decision-makings as members of the Board of Directors. In order for them to fulfil this role adequately and effectively, and for the Group to retain individuals with the capability and experience required, the appropriate compensation level of Independent External is set based on comparisons with other companies using benchmark data provided by specialist external advisers.

Independent External Directors receive fees for the performance of their duties. They are not eligible for performance-related bonuses or awards under long-term incentive plans.

Independent External Directors receive additional reward if they act as Chair at either the Board or any of the Committees.

Meanwhile in the case that a Non Independent External Director is elected, such Non Independent External Director will receive the level of compensation adequate for his/her duties in a way commensurate with the duties discharged by Independent External Directors including in terms of whether or not to be appointed as member of any of three Committees and so forth. Also, as with Independent External Directors, Non Independent External Directors are not eligible for performance-related bonuses or awards under long-term incentive plans.

B) Amount of Compensation for Directors and Executive Officers

6. Accounting Auditor

(1) Name of Accounting Auditor

Ernst & Young ShinNihon LLC

(2) Fees, etc., to Accounting Auditor with respect to the Fiscal Year

Fees, etc., to Accounting Auditor with respect to the fiscal year under review	¥ 138 million
Monetary and/or other property benefits payable by the Company and its subsidiaries to Accounting Auditor	¥ 138 million

Notes:

1. The audit contract entered into between the Company and the Accounting Auditor does not differentiate the fees payable to it from their audit in their capacity as Accounting Auditor pursuant to the Companies Act and those payable to from their audit pursuant to the Financial Instruments and Exchange Act. It is not practically possible to differentiate them, either. As such, the "Fees, etc., to Accounting Auditor for the fiscal year" referred to in the above table show the total sum payable for these services.
2. Ernst & Young also acts as principal auditors for material subsidiaries of the Group.

(3) The Reason for which Audit Committee Consented to the Fees, etc. to the Accounting Auditor

Audit Committee gave its consent to the amount of the fees, etc. payable to the Accounting Auditor as set forth in Article 399.1 of the Companies Act, after, among others, having reviewed their audit plan, last year's performance and the rationale of fee estimate by way of receipt of the necessary documents and conduct of hearing from the Executive Officers, relevant departments and Accounting Auditor themselves.

(4) Policies on Dismissal or Non-reappointment of Accounting Auditor

In addition to the dismissal of the Accounting Auditor by the Audit Committee where the Accounting Auditor is considered to fall into any of the causes described in Article 340.1 of the Companies Act, the Audit Committee shall, as a matter of principle, propose an agenda for dismissal or non-reappointment of the Accounting Auditor to the General Meeting of Shareholders when the Audit Committee considers that it would be difficult to the Accounting Auditor to perform its duties properly, due to violation of law by the Accounting Auditor or other matters impairing the eligibility or independence as Accounting Auditor.

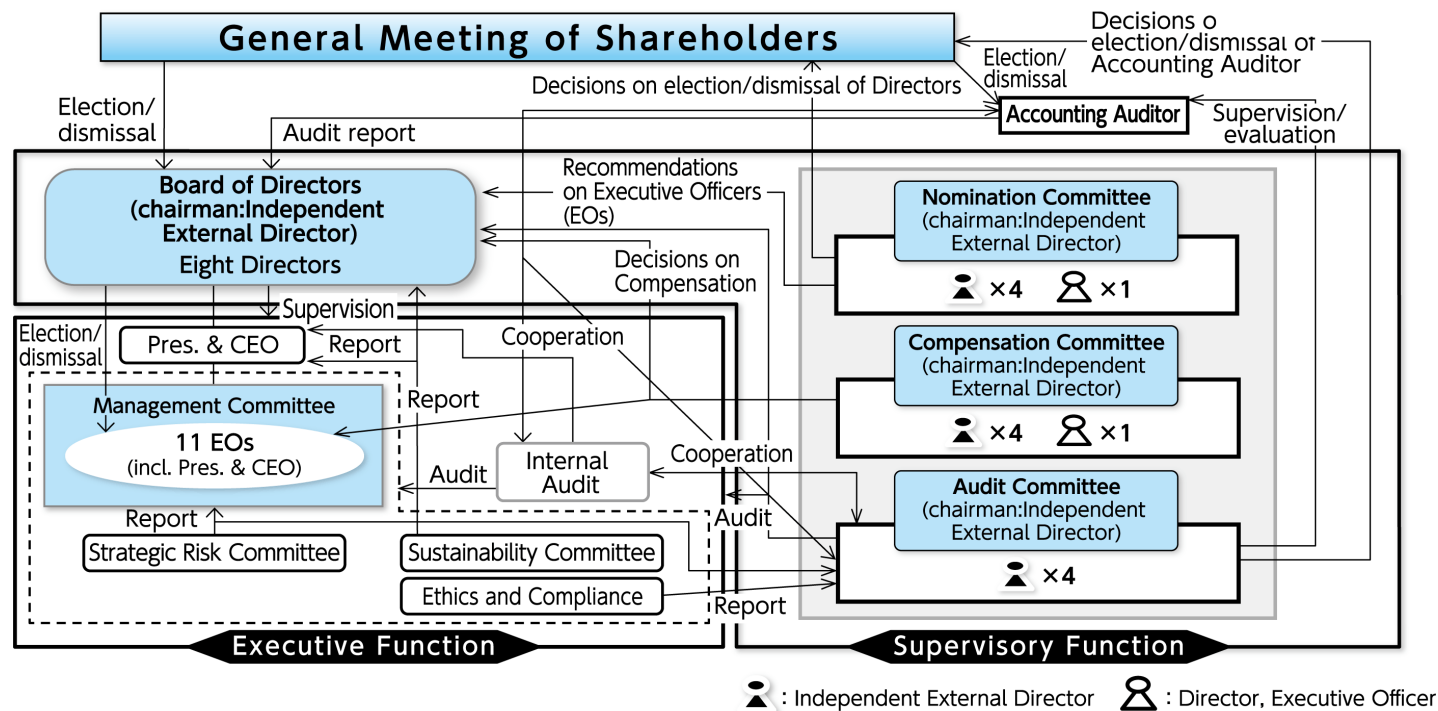

7. Status of Corporate Governance

(1) Policy and Structure

The Group adopts a company with three committees structure, under which we intend and seek to introduce additional safeguards for shareholders, increase the transparency of management, and enhance corporate governance by separating the functions of execution and oversight, with the role of the Independent External Directors strengthened.

NSG Group established the “NSG Group Corporate Governance Guidelines” supporting the Principles of the TSE Corporate Governance Code. These Guidelines provide the basic principles and framework of the corporate governance for the Group to enhance its corporate values in a sustainable manner, on a medium-to-long term basis, and thus increasing the common value of the Group for our various stakeholders including our shareholders.

(2) Management System

- **Board of Directors** decides or approves matters delegated to it by resolution of the General Meeting of Shareholders as well as especially important matters on the execution of the Company’s business, in addition to the matters provided by laws and ordinances or by the Articles of Incorporation, and supervises the execution of duties by Directors and Executive Officers.
- **Nomination Committee** decides the details of the agenda items on election and removal of Directors to be submitted to the General Meeting of Shareholders, supervise succession plans for President, CEO and other important offices, and give recommendation or advice on candidates for Executive Officers to the Board of Directors.
- **Audit Committee** conducts audits of the execution of duties by Directors and Executive Officers, prepares for audit reports, and decides the details of agenda items on the appointment and removal of Accounting Auditor, as well as their non-reappointment.
- **Compensation Committee** makes decisions on principles with respect to compensations for Directors and Executive Officers and on individual compensations of Directors and Executive Officers under such principles.
- **Management Committee** gives direction to the management of the Group and monitor the status of its implementation from time to time.

(3) Systems to Ensure that Execution of Duties by Executive Officers are Compliant with Laws and Articles of Incorporation and to Secure Appropriateness of Businesses

- The Group formulates the internal policy with respect to the management of the Company's subsidiaries which ensures each material subsidiary to notify the Company regularly of the matters relevant to it regarding: internal audit, finance, treasury, taxation, human resources, labor relations, pensions, health and safety, investor relations, legal, ethics and compliance, environment and any other areas related to internal controls and the status of risks or exposures associated with such areas.
- Internal audit will be conducted on a group basis.

6. Systems to ensure effectiveness of audits conducted by the Audit Committee

- The Audit Committee, as a part of oversight function of the Board, is tasked to audit execution of duties by Directors and Executive Officers, on the basis of this Fundamental Policy on Internal Control System, from a viewpoint of whether:-
 - an internal control system is established, maintained and implemented by the Executive Officers in an appropriate manner;
 - and this Fundamental Policy itself is still valid or requires no improvement.
- For the purpose of securing effectiveness of such audit:-
 - the Audit Committee may have its members attend Management Committee meetings and other important meetings of the Group. When other forms of decision-making processes are used in lieu of discussion at a meeting, the Audit Committee has the right of access to any information related to or used in such decision-making processes;
 - the Audit Committee may, as it deems necessary, interview any of those Group Employees with senior positions to obtain information necessary to conduct its audits;
 - the Audit Committee receives regular reports about the current risk exposures of the Group with respect to the followings from departments and functions responsible therefore:-
 - internal audit, finance, treasury, taxation, human resources, labor relations, pensions, health and safety, investor relations, legal, ethics and compliance, environment and any other areas related to internal controls;
 - the Audit Committee has the right of access to any material corporate document containing material information including but not limited to papers used for Management Committee meetings and internal approval documents;
 - the Audit Committee receives explanation from the Executive Officer in charge of financial affairs on the Group's quarterly and full-year financial statements before they are presented to the Board for reporting or approval;
 - the Audit Committee shall meet with Internal Audit function and Accounting Auditor on a regular basis to obtain necessary information; and
 - Members of the Audit Committee may conduct onsite inspections of the Group's major sites to monitor the

status of the business and assets when it deems further necessary to do so in light of the purpose of audit prescribed above in this section.

7. System for reporting by the Group's Employees to the Audit Committee and other systems concerning reporting to the Audit Committee

- Directors and Executive Officers shall report the followings to the Audit Committee immediately when:-
 - an individual has found any fact that could have a substantially adverse effect on the Group
 - a Group Employee has committed or could be considered to commit such an act as may constitute a violation of any law, regulation or the Articles of Incorporation.
- Without prejudice to generality of the foregoing section, the Audit Committee may request any of the Group Employees to prepare and submit such reports as it deems necessary for audit.
- The Group explicitly guarantees that no retaliation or unfavorable personnel action in any manner should be taken against those who report to the Audit Committee by reason of such reporting.

8. Matters relating to Directors and/or Employees who support the execution of duties by the Audit Committee

- The Group shall establish an Audit Committee Office that assists the execution of duties by the Audit Committee, and shall assign such number of employees as it deems necessary for the performance of its functions (hereinafter referred to as "Support Staff of the Audit Committee").
- Under the instructions of the Audit Committee members, Support Staff of the Audit Committee shall:-
 - by themselves, or by liaising with relevant departments, investigate, analyze or report the matters subject to its audit, and
 - where necessary, assist the Audit Committee in conducting onsite inspections of the Group's major sites to monitor the status of their business and assets.

9. Matters relating to i) independence of the above Directors and/or Employees from Executive Officers, and ii) how to ensure effectiveness of Audit Committees' instructions thereto

- Decisions on personnel matters of Support Staff of the Audit Committee shall require the prior notice to and consent of the Audit Committee.

- If a member of the Audit Committee requests an advance payment of the expenses to be incurred in the course of his performance of the duties or otherwise makes such requests as provided in each section of article 404.4 of the Companies Act, the Company shall not refuse such request except where the Company proves that the said expenses or debts relating to such request is not necessary for the performance of the duties of the committee member in question.

(4) Summary of the manner of Operation Status of “Systems to Ensure that Execution of Duties by Executive Officers are Compliant with Laws and Articles of Incorporation and to Secure Appropriateness of Businesses”

Summary of the manner of operation status throughout FY2019 of “Systems to Ensure that Execution of Duties by Executive Officers are Compliant with Laws and Articles of Incorporation and to Secure Appropriateness of Businesses” was as follows:

1. Actions with regard to the Group’s Ethics and Compliance

- The NSG Group Code of Ethics broadly covers the ethical behavior expected of our employees in the work place, including compliance with the law and all major Group policies, and procedures and guidelines. The Code is available in all Group 19 languages on its intranet.
- The Group has in place the Reporting of Concerns system including the Ethics and Compliance (E&C) Hotline. The confidential hotline is operated by a qualified third party, where anyone can report E&C related concerns anytime, even anonymously except as prohibited legally. The hotline is available in multiple languages. All hotline reports are handled consistently in accordance with the relevant Group policies and procedures, being appropriately investigated where warranted. Any form of retaliation against an individual who has reported in good faith is expressly prohibited. In FY2019, 74 allegations were reported via the Reporting of Concerns system.
- Under the Group’s Chief Ethics and Compliance Officer’s leadership, E&C regional managers were appointed for each major region to embed E&C culture into the whole organization within the Group as well as cover risks in each region.
- The Group requires its employees to report or obtain prior permission from Group E&C with regard to certain matters in high risk areas such as competition law compliance (CC) and Anti-Bribery and Anti-Corruption (ABAC) via an online system.
- The Group is monitoring third parties such as agents, consultants and joint venture partners that meet certain risk criteria of ABAC.
- The Group has expanded the scope of online trainings to other risk areas than CC and ABAC, such as General Data Protection Regulation (GDPR), Social Media, Fraud and Inclusion & Diversity.
- The Group’s Chief Ethics and Compliance Officer periodically issues E&C briefings, which are translated in 11 languages and available on the Group’s intranet.
- Group E&C regularly reports to Audit Committee on its performance and action plans.

2. Actions with regard to the Group’s Risk Management

- We identify and assess annually the material risks which should be controlled on a group basis in accordance with NSG Group Risk Management Policy.
- We have established and been operating Strategic Risk Committee whose member consists of Executive Officers including CEO; Chief Risk Officer (“CRO”) is also appointed from among the Executive Officers. Strategic Risk Committee is entrusted, among others, to provide for an overall framework for an enterprise risk management of the Group and differentiate the high level risks which could be expected to have a material adverse effect on the Group from the risks to be properly managed by each division and then monitor the status of counter-measures taken against those risks and require the division in charge to react accordingly in the event of deficiencies found. Strategic Risk Committee appoints a risk owner for each of the high-level risks so identified and control the process of information gathering and progress of the measures taken regarding such risks. CRO presides over any and all of the meetings of Strategic Risk Committee and as representative of the Committee regularly reports to, and receives review of, Management Committee and Audit Committee in relation to effectiveness of the fundamental system of the internal control and risk management structure of the Group.

- Each Strategic Business Unit (SBU) and Function in support of SBUs constituting the Group manages and controls risks associated with execution of its own duties and reports, regularly and on an as-needed basis, to the Strategic Risk Committee.
- Internal Audit Function has the role of giving independent assurance to efficacy of such overall enterprise risk management of the Group.
- In addition to the risk management and control implemented by SBUs and Functions, we have also created and been operating the NSG Group Entities Management Policy in order to enable us to comprehensively identify and manage and control material risks particularly in light of each legal entity constituting the Group. The Executive Officer in charge is responsible for regularly reporting to Management Committee and the Board of Directors regarding the outcome.
- We have, in preparation for potential major incidents and calamities, organized and constituted a major incident management team at and for each operating site where major incident management plan is also prepared and in operation, on the basis of NSG Group Business Continuity Policy and Major Incident Guidelines.
- Executive Officers of the Company preserve, maintain and control such information or data as may be relevant to their performance of the duties in their capacity in accordance with the NSG Group Record Retention Policy and IS Security Policy.

3. Actions to Ensure the Group's Efficient and Effective Management

- The Group has established the Management Committee (MC) as advisory board for the President/Chief Executive Officer (CEO) in order for the policies and goals established by the Board of Directors to be efficiently and adequately carried out. 11 MC meetings were held during FY2019.
- In relation to FY2018, the Group conducted an effectiveness review and evaluation of the Board as well as the Nomination, Audit and Compensation Committees. As for this review, the independent directors were entrusted to lead and supervise the whole process of analysis and evaluation under the leadership of the Chairman of the Board so that sufficient adequacy and independence was maintained throughout. As a consequence, it resulted in a positive evaluation for all meeting vehicles that their efficiency has improved further from FY2017 and the manner of operating each such meeting is proper and adequate. Simultaneously, however, certain concrete suggestions and views were also presented from the perspective of further enhancing the contents of discussion on strategic direction of the Group and in light of the exercises for implementing more robust risk management. With the aid and on the basis of such results and views, the Board has created and carried into effect the specific action plans, one of whose aim is to ensure that further in-depth opportunities for discussion and confirmation be made available to the Board in relation to those strategic issues. Those action plans are the subject of regular review in light of their status of implementation and effect as well as the contents themselves.
- We have promoted the initiative of separation of oversight and executive role whereby we strengthen the supervisory role and duties of the Board over the executives whilst making necessary delegation of powers and authorities to the executives, thus seeking to enhance transparency and agility of whole management process.
- We set in place the internal rule clarifying the roles and decision-making authorities of each layer of management from Representative Executive Officers to each regional SBU heads. As such the Group operates the organization in which we can make business decisions appropriately and timely addressing changes of market and business environment etc.
- We have introduced and effected IT-operated authorization flow process for efficient and effective business management, including in relation to performance management against progress or results of management plans such as long and medium-term plan or annual plan and approval process for capital expenditures requisition.
- We operate the organization with its reporting lines clarified by having the specific organization charts by each SBU

and function which supports SBUs.

4. Actions to Ensure the Effectiveness of the Group's Audit

- Group Internal Audit implements audits on a group basis in accordance with annual audit plan agreed by Audit Committee, and reports such audit results to Audit Committee, Executive Officers and external Accounting Auditor.
- Three dedicated Support Staffs of the Audit Committee are appointed for assistance of Audit Committee, and report to and provide necessary information to Audit Committee.
- A member of Audit Committee and Support Staff of Audit Committee attends internal material meetings such as MC in order to ensure the effectiveness of their audit. They have rights to access necessary important documents and so on for their audit.
- Audit Committee periodically meets with Group Internal Audit and other internal control functions and exchange views with them.
- Audit Committee meets with the Accounting Auditor on a periodical and as-necessary basis, keeping close communication with them.

The above reports are prepared by rounding off any fraction of one million yen to the nearest one million yen. Any future and prospective matters contained above are described by reference to the then status existing as of the end of FY2019.
