NSG Glass Selected for Odakyu Limited Express Romancecar (70000 series GSE)

TOKYO (April 16, 2018) – NSG Group’s glass has been selected by Odakyu Electric Railway for its new Limited Express Romancecar (GSE series 70000) train which started service on March 17, 2018.

With its signature panoramic windows, Romancecar’s spectacular view is well known among the passengers. Installed in the highly popular observation car is a NSG windshield glazed with the largest ever glass in this type of train cars (2,101 mm x 2,355 mm, NSG data) with 3-D bending.

Adding to the train’s spacious interior and aerodynamic style, the windows on both sides of the train car have also been made larger than the previous model with the distortion-free installment of large Insulated Glass Units (IGUs) up to the size of 1047 mm x 2154 mm.

Through its glass, NSG Group is pleased to contribute to the new Romancecar’s enhanced passenger experience.
